

October 25, 2011

Dear Whitlock Warrior,

In order to increase our awareness in regard to the needs of your neighborhood, the Carrollton Police Department would like residents in your neighborhood to individually answer the question, "What single issue occurring in your neighborhood concerns you the most?"

As an example, this could include but is certainly not limited to issues like: speeding traffic, juvenile/gang activity, loud noise, parking violations, property crime, violent crime, or possible illegal drug sales. We are looking for examples of problems residents actually see in your own neighborhood, not general crime problems that they think may be occurring in the city. If you have residents that don't see or perceive any problems in your neighborhood, please pass that along to us as well.

To accomplish this, please survey your neighborhood and determine what each of them believes is the single most important issue for your neighborhood. Each response is important to us and we are interested in individual responses, not a consensus or majority opinion of resident responses. Please be as specific as possible about each resident's concern in your response to us.

Contact the Carrollton Police Department Crime Prevention Unit if you have any questions at 972-466-3330 and email your survey results to Officer R. Stuart by November 28, 2011.

Email your response to Robert.Stuart@cityofcarrollton.com

Thank you,

Officer Robert Stuart
